## Gold Croco Collection

Elegant, sporty and innovative, the Gold Croco breathes individuality with its unparalleled style and harmonious contours. The case and even the dial seem to be an extension of the beautiful alligator strap, thus creating a disconcerting uniformity. The case and dial are entirely machined from a solid mass of 18k rose gold to create the most realistic scales aspect. This touch of originality highlights what is considered to be one of Franck Muller's most innovative creations in terms of design.
